TECHNICAL SKILLS

ANALYTICS & AI SKILLS

- Data Analytics
- Generative AI
- Predictive Analytics
- EDA
- Data Visualization
- Risk Analysis
- Business Strategy
- Data Storytelling
- Financial Analytics

CORE CONCEPTS

- DSA & Algorithms
- OOP & Design
- RDBMS
- Linux / Red Hat
- Full-Stack Dev

LANGUAGES

- English • Fluent
- Hindi • Native
- Bengali • Native

SOFT SKILLS

- Team Management
- Problem Solving
- Collaboration
- Creative Thinking
- Project Management

EDUCATION

B.Tech — CSE Core 2024 – Present

Manipal University Jaipur

◆ 3rd year · CGPA: 9.0 · Coursework: DSA, OOP, RDBMS, Algorithms.

Class XII · CBSE 2024 | 86%

Bal Bhavan Public School, Delhi

Class X · CBSE 2022 | 92%

Bal Bhavan Public School, Delhi

EXPERIENCE

AI Web Development Intern Jun 2026 – Present

InAmigos Foundation (IAF) · Internship · Remote

- ◆ Selected for AI Web Development Internship via Internshala; building AI-powered web apps.
- ◆ Implementing AI, ML & Full-Stack Web Development concepts on real-world projects.
- ◆ Collaborating with mentors & interns; developing skills in software dev & project management.

Data Analytics Job Simulation Jun 2026

Tata Group (Tata iQ) · Forage

- ◆ AI-powered data analytics & strategy simulation for Tata iQ Financial Services.
- ◆ EDA using GenAI tools — data quality, risk indicators & predictive insights.
- ◆ Proposed no-code delinquency risk prediction framework using GenAI model logic.
- ◆ Designed agentic AI collections strategy with ethical AI, compliance & automation.

OPEN SOURCE

Contributor / Mentee — GSSoC '26 2026 – Present

GirlScript Summer of Code · Open Source & AI/Agents Track

- ◆ Contributing to real-world open-source projects across Open Source & AI/Agents tracks.
- ◆ Collaborating globally on software development and AI technologies.

Contributor — ECSOC '26 2026 – Present

Elite Coders Summer of Code · Open Source Track

- ◆ Selected as contributor; working on real-world open-source projects with mentors.
- ◆ Strengthening dev workflow across ML, Backend Development & DevOps while building meaningful contributions.

ACHIEVEMENTS

■ **1st Place — Build Fest 2.0 Hackathon** Jan 2026

Cyber Space Club · Manipal University Jaipur

- ◆ Secured first position through innovation, teamwork and creative problem-solving.

CERTIFICATIONS

- ◆ Tata GenAI Powered Data Analytics Simulation — Forage Jun 2026
- ◆ Design & Analysis of Algorithms — NPTEL May 2026
- ◆ Red Hat Sysadmin I & II (RH124/RH134 v9.3) — Red Hat Mar 2026
- ◆ Java (Basic) & Python (Basic) — HackerRank Feb 2026
- ◆ DSA using Java — NPTEL Nov 2025

PROJECTS

Vital Auto *Agentic AI · Python · ML*

■ aarnaghosh.github.io/Vital-Auto

Agent-based AI predicting vehicle breakdowns & scheduling maintenance via 6 specialised agents.

OceanPulse *React · Vite · JS*

React + Vite web app for ocean/environmental data visualisation and monitoring.

TraceAI — FaceFinder *DeepFace · ArcFace · JS*

■ aarnaghosh.github.io/TraceAI

Browser-based facial recognition matching a reference image against video frames with scored results.

Store Stock Mgmt *SQL · RDBMS*

Normalised relational DB modelling inventory, stock, suppliers & transactions for RDBMS coursework.
